CERTIFICATION AND FINISHED PRODUCTS OF OUR CLIENTS:

APOB: S No-25/4, Dhayari-Narhe Industrial Estate, Mouje Narhe Pune 411041.

Why Choose Us

Features of our technology:

- ♣ Most efficient processing technique with latest upgraded technology.
- ♣ As honey is processed below 45° C the basic quality of product viz. Aroma, flavor, color, HMF, pollen count remains nearby unaltered alike a **RAW HONEY**.
- ♣ Moisture reduction of honey is performed not by direct heating (heat transfer by air current) hence our system is most efficient in present scenario of available options in the market worldwide.
- ♣ Almost all exporters prefer our technology as processed honey from our installations can be **exported worldwide**.
- → Our clients had been accredited with **HACCP** certification and **FDA** approvals of issuing Authorities.
- ♣ We have repeat orders from our valuable clients due to our efforts for up

OUR RANGE OF MILK PROCESSING UNITS

- A. 100 kg capacity honey processing line for small bee-keepers.
- B. 100-300 Kg honey processing line.
- C. 500 Kg per day honey processing line
- D. 1 MT per day honey processing line.
- E. 5 MT per day honey processing line.
- F. 20 MT per day honey processing line.

We also supply milk, by product viz. paneer, yogurt, cheese, butter, ghee, processing line and Aloe-Vera, chilling and processing plants:

♣1000 LPD to 1,00,000 LPD

Waiting eagerly for confirmation of your order with best of our services.
