# CERTIFICATION AND FINISHED PRODUCTS OF OUR CLIENTS:

APOB: S No-25/4, Dhayari-Narhe Industrial Estate, Mouje Narhe Pune 411041.

# Why Choose Us

# Features of our technology:

- ♣ Most efficient processing technique with latest upgraded technology.
- ♣ As product is processed below 45° C the basic quality of product viz. Aroma, flavor, color remains nearby unaltered alike a **RAW gel**.
- ♣ Moisture reduction of product is performed not by direct heating (heat transfer by air current) hence our system is most efficient in present scenario of available options in the market worldwide.
- ♣ Almost all exporters prefer our technology as processed product from our installations can be **exported worldwide**.
- ♣ Our clients had been accredited with **HACCP** certification and **FDA** approvals of issuing Authorities.
- ♣ We have repeat orders from our valuable clients due to our efforts for up gradations of latest techniques and most efficient service.

### **OUR RANGE OF MILK PROCESSING UNITS**

- A. 100 kg capacity Aloe vera processing line for small farmers.
- B. 100-300 Kg processing line.
- C. 500 Kg per day processing line
- D. 1 MT per day processing line.
- E. 5 MT per day processing line.
- F. 20 MT per day processing line.

We also supply milk, by product viz. paneer, yogurt, cheese, butter, ghee processing line and Aloe-Vera, chilling and processing plants and honey processing lines:

**♣**1000 LPD to 1,00,000 LPD

Waiting eagerly for confirmation of your order with best of our services.
